Cape May County Superintendent Resolutions

WHEREAS, the validity of the comparison between the 2014-2015 and 2015-2016 school years will now be compromised due to the change in the structure of the delivery and overall design of the PARCC assessment; and

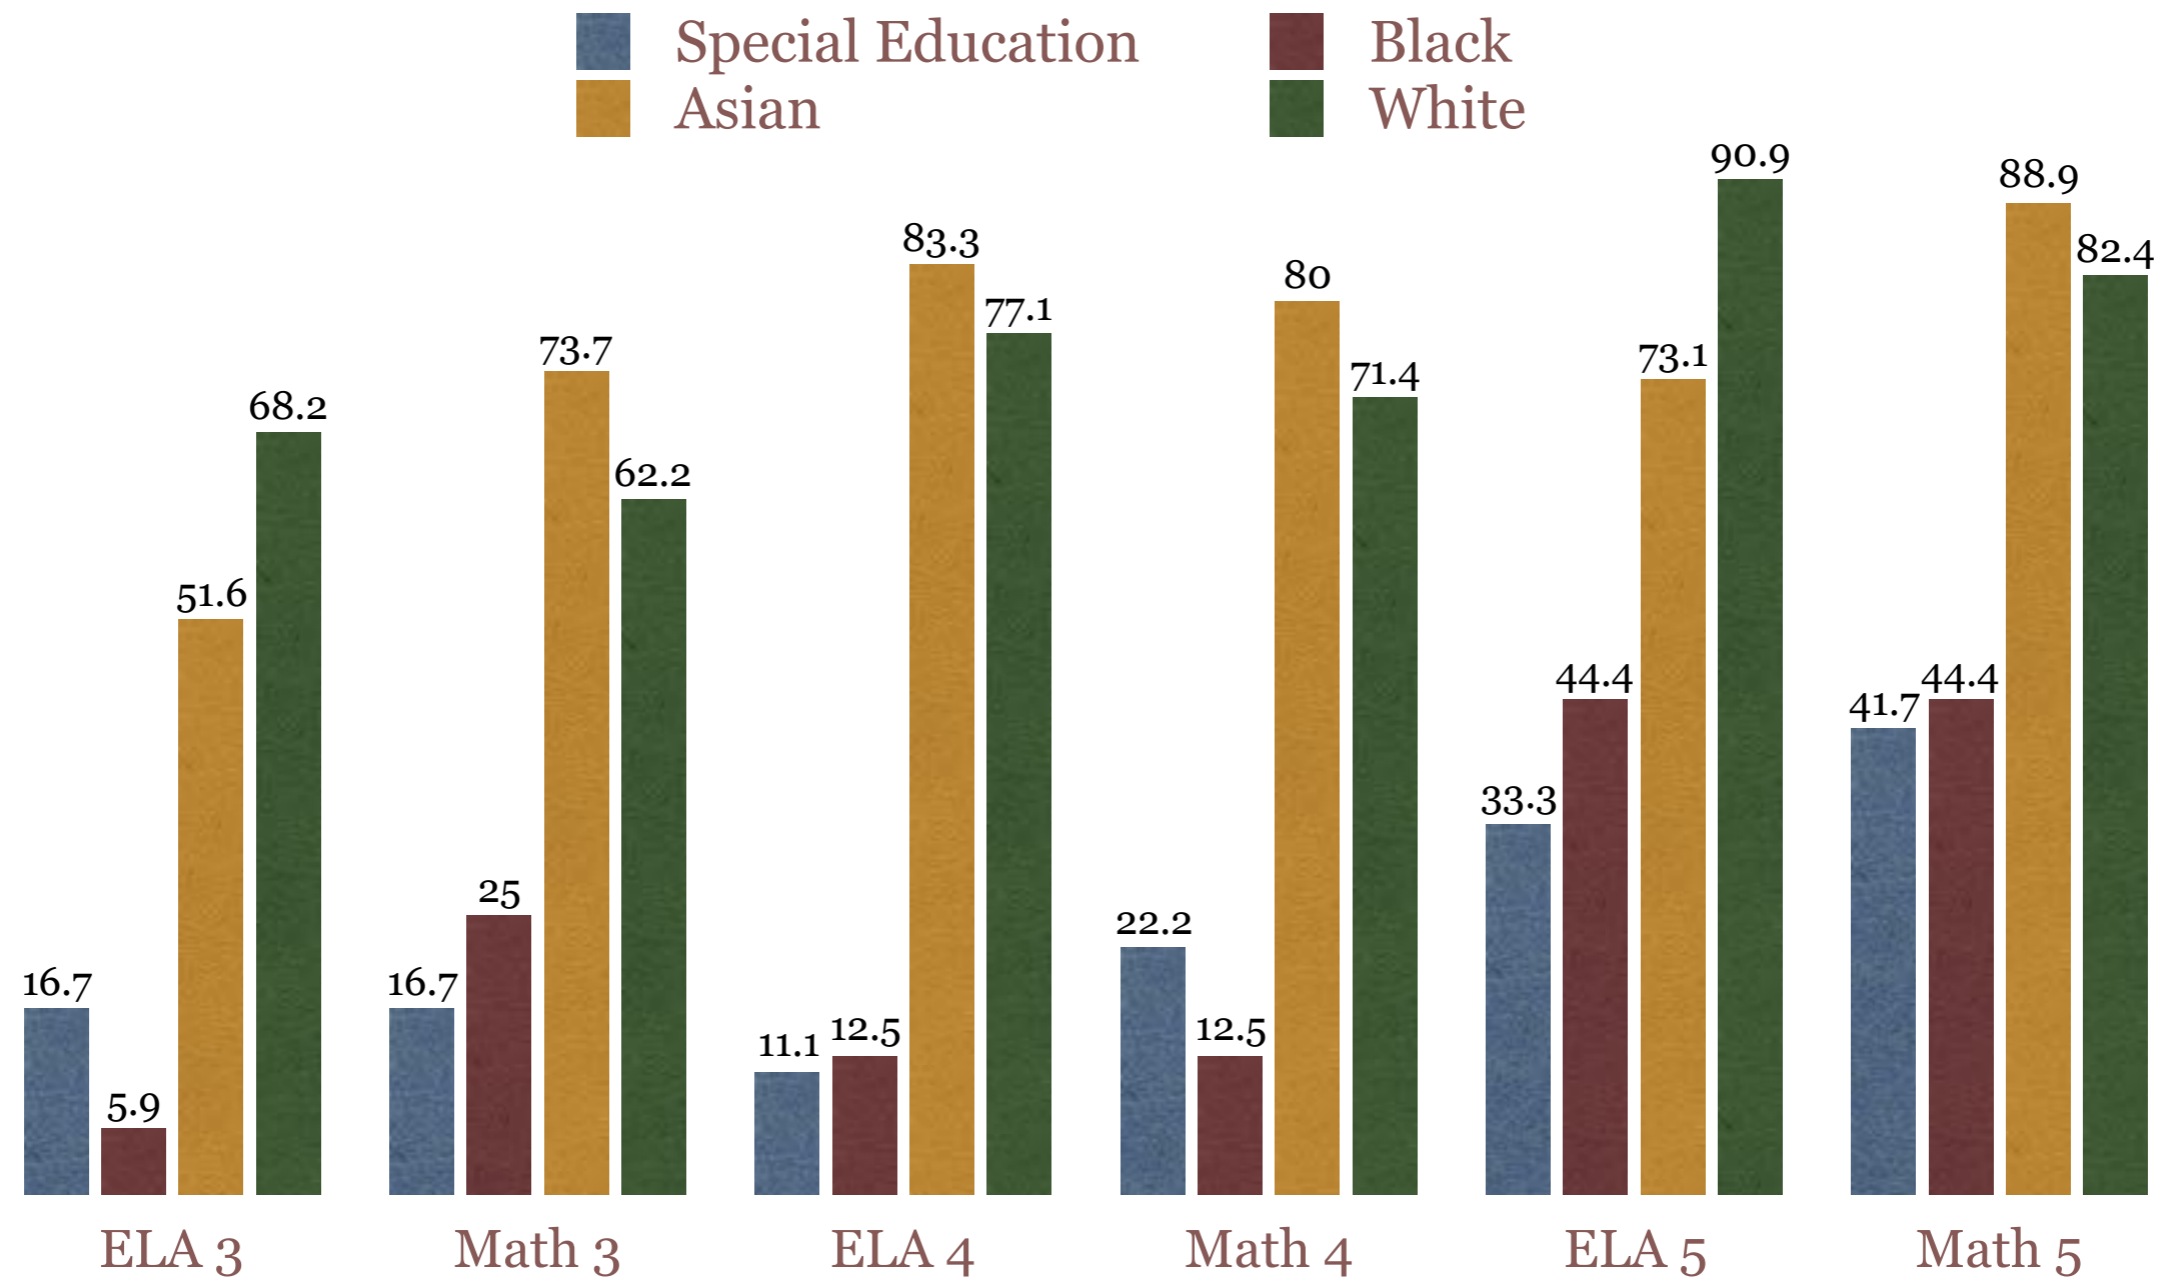

WHEREAS, students, schools, teachers, administrators, and districts will still be held accountable for performance based on the results of this compromised comparison of the 2014-2015 and 2015-2016 school years' PARCC assessment data, and student participation rates over which districts have little control; and
